**LWM ELECTRON 3™**

**\$1,500 (Sugg. Retail \$1,995)**

A bulb placed in the airspace above the water line in the boiler creates ozone as air is brought into the boiler 3

times/minute creating higher electron levels with incredible results reported. Unlike an ozonator that doesn't work, the water vapor passes through an ozone layer so the clusters of water molecules can pick up more electrons. The Bacteria Destruction Chart shows these electrons kill viruses, pathogenic bacteria & parasites with astounding reports.

Also, water systems must have an AIR GAP (local codes)! INCREDIBLY with present day threats, ordinary distillers, filters, ozonators, reverse osmosis etc. have NONE!! Our patents show that VAPOR MUST PASS AN AIR GAP which produces E3 electron levels 10 times higher than the LWM! Researchers at Yale University measured the amount of oxygen trapped in fossilized amber for millions of years. It varied from 35 to 40%! Today, it's about 21% and can be as low as 10% near the traffic in major cities! Otto Warburg won the Nobel prize twice "Diseases on the Bacteria Destruction Chart can't survive in a high oxygen environment!"

ELECTRON levels are dangerously low (SciAmer) and we aren't getting enough from water or air. We need these electrons to live (SciAmer) and these patented machines are now the leading edge technology (THE WASHINGTON TIMES and elsewhere) to stop dangerous bacteria! ANY water, except this electron rich water. AFTER it leaves ANY purifier quickly GROWS VIRUSES & BACTERIA CAUSING problems! ELECTRONS KILL THEM and unlike ANY other water no chemicals are needed in a hot tub because the water CONTINUES TO PURIFY ITSELF WITH ELECTRONS! Any lab that test water properties can show you why we have NO COMPETITION... with astonishing letters on file!

**LWM ELECTRON 4™**

**\$1,700 (Sugg. Retail \$2,195)**

Same as LWM ELECTRON 3™ but with levels 15 times higher (with CORNING™) in passing vapor through an air gap.

**LWM ELECTRON 5™**

**\$2,800 (Sugg. Retail \$3,295)**

Same as Electron 4™ except with twice the oxygen and electron output with two bulbs and a more powerful transformer!! 50 Years ago oxygen was much higher in the atmosphere and you rarely heard of the problems we have today! Today, oxygen is much lower and, as a result, we have an epidemic. This is the only product that keeps oxygen levels high!
